

Name _____

Look at the pictures.

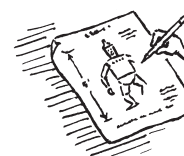

Read the steps.

Write a number from 1 to 5 to show the right order.

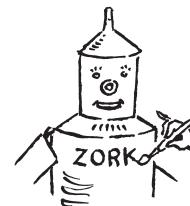

_____ Then get some old cans and pots.

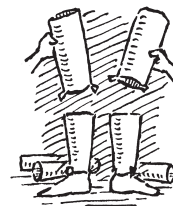

_____ First, you must make a plan.

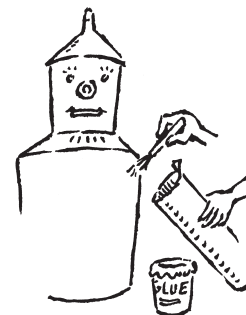

_____ The last thing to do is to give your robot a name!

_____ Use the cans to make the parts of the robot.

_____ The next thing you will do is build the robot using the parts you made. Start from the legs and go up.
